a
One scan: amplitude distributions
bit 1: 159.6 kHz
bit 0: 180.6k (baseline)
bit 0: 53.5k (candidate)
density (all body sweeps)
per-scan amplitude / sweep's 159.6 kHz rms
b
Bit-0 level relative to bit 1, per sweep
bit 0 = 180.6k (baseline)
bit 0 = 53.5k (candidate)
bit-0 rms / bit-1 rms (dB)
sweep (body, then glass / phantom)
c
Body sweeps: median and range (floor 1e-5)
bit 0 = 180.6k (baseline)
bit 0 = 53.5k (candidate)
bit error, tone 1 vs tone 0 (best threshold)
scans per bit (125 scans/s: 125, 63, 42, 21, 10 bps)
